The Counter

Features

- Keep track of how many times our friend meets other people
- Keep track of cool events happening on campus
- Keep track of books and movies for book club and movie nights
- Keep track of how late everyone is to the 8am class
- Plan events to the city and other locations instead of spreadsheets

Setup

To install dependencies, run

```
pip install -e .
```

To run application, run

```
cd theCounter
flask --app main run
```
